Introduction

A special browser is used to conduct the online examination, the Safe Exam Browser (SEB). This browser enables the checks in a protected environment. Thus, unauthorized access to other programs and the Internet is blocked. Therefore, all students solve the checks under the same general conditions.

The Safe Exam Browser (SEB) installation guide shows you which steps are necessary for installation. Supported are operating systems Windows from version 8.

Go to our website.

<u>Prüfungsinformationen Online - Personenzertifizierung | TÜV NORD (tuev-nord.de)</u> It contains the links and information for setting up the SEB.

It contains:

- general information about our online exams
- the examination regulations
- the links and information on setting up the SEB
- frequently asked questions about online examinations

Press "Finish" to complete the installation.

Installing Zoom on Windows

Go to https://zoom.us/download.

Select the version that suits you (if you don't know exactly, choose the 64-bit version). Click to start the download and then you can install the programme.

The installation is completed as soon as the zoom window opens. You can close this window.

Exam simulation Windows

To ensure a successful exam day, we recommend that you go through the steps once after installing the programs so that you are prepared for the exam day.

For this purpose, we have prepared a step-by-step guide for you, with which you can already get to know the settings as well as the examination procedure.

Step 1: Invitation mail

You have received an email from the examination centre. If you have taken part in a webinar, please use the same account for the TÜV NORD Learning World. There you will find a new module with your exam. If you do not yet have an account, you will find the link to register in the e-mail.

Step 2: Registration on system

Log in to the TÜV NORD Learning World on the day of the exam via the link you will find in the email. If you have already attended a webinar, you can simply log in to your account.

You are in the waiting room for the exam.

Es kann zu einer Warteschlange kommen, da die Gespräche aus datenschutzrechtlichen Gründen mit den Teilnehmern einzeln durchgeführt werden müssen. There will first be a 1-to-1 zoom video call so that we can establish legitimacy based on your identification document and view your workstation.

It may take a moment in the waiting room, as the interviews must be conducted with candidates individually for data protection reasons. Please be patient.

Afterwards, you will be pushed back into the waiting room. You will have to wait there until all candidates are ready. Then all candidates will be brought into the Zoom examination room for a joint briefing. During this briefing, explanations about the exam will be given and you will have the opportunity to ask questions.

Bitte haben Sie etwas Geduld, der Prüfer ist gleich für Sie da. Systemcheck für Online Prüfungen (TŨV) Lautsprecher und Mikrofon testen A password is required to begin the exam.

By entering the password, you confirm that you have been informed about the exam rules and that you have had the opportunity to ask questions in advance. You affirm that you will not appropriate or disclose any confidential exam materials (photographing, filming, or copying exam questions, etc.) and will not attempt or participate in any cheating. You accept the rules of the certification body including the "General Examination Regulations" by entering the password.

You will receive the password during the briefing together in the Zoom exam room to start the exam together.

The exam will also take place together with all other participants in this shared Zoom exam room. You will see all the other participants and will be seen by everyone, just like in a face-to-face exam.

Now click the examination

Start the exam via the "Test starten" button in the upper left corner.

Enter the password mentioned in the briefing.

Enter Test Password This test can only be accessed with a test password. Please enter the test	password to start the test.

Only when you press the "Submit" button will you start your exam and the exam time will begin.

Step 5: After the exam:

If the exam time has expired or you end the exam via the "Test beenden" button, a provisional result is immediately displayed for pure MC exams.

Herzlichen Glückwunsch! Sie haben den Test bestanden. Sie haben die Note "bestanden" erzielt.

or

Schade, leider haben Sie den Test nicht bestanden. Sie haben die Note "nicht bestanden" erzielt.

For exams with open tasks, no preliminary result can be displayed, as these are evaluated by the examiner afterwards.

Our examinations are subjected to a second review before the official announcement of the result, which also includes the examiner's feedback on the examination conditions and any special features that may have arisen.

You will be notified of your exam results by the training provider shortly after the exam, but no later than six weeks after the exam.

If you pass the examination, the TÜV NORD CERT certificate is the examination certificate. Pass or fail grades will be given on the examination.

Assistance in case of difficulties

We offer a set appointment for technical assistance and questions about our online exams every Wednesday from 4:00 - 5:00 pm via Zoom. Zoom-Link zum Systemcheck

You can reach us in urgent cases at: Mail: <u>PersZert@tuev-nord.de</u> Phone: 040 8557-2557

The Examination Center wishes you good luck.
